- History-A
- Buddhism- A
- Art -B
- English- S
- Electronic Technology- S

G.C.E ADVANCED LEVEL EXAMINATION - 2021

- Biology - C
- Chemistry - C
- Physics - S

PROJECT
PORTFOLIO PROJECT

- Created a personal portfolio website using HTML and CSS to showcase my projects, skills, and experience. Designed a responsive, user-friendly layout with smooth navigation and interactive elements to highlight my work in web development and other projects.

MERN PROJECT - E-COMMERCE

- Developed an e-commerce website using the MERN stack (MongoDB, Express, React, Node.js). The platform allows users to browse products, add items to the cart, and securely complete transactions. Focused on creating a seamless user experience and implementing features like user authentication, product management, and order tracking.

REACT FRONTEND PROJECT - GAME SITE

- Spy Games is a simple yet stylish spy-themed game site built using React.js. This frontend-only project focuses on clean design, smooth user experience, and responsive layout. It showcases the potential for a full-featured gaming platform with an emphasis on UI/UX.
